15+ years
building enterprise software

20+ people
led: 10 engineers + QA & BA

20+ projects
live for Pertamina, Jul–Dec 2025

1–1.5 months
kickoff to full QA (was 3–4)

PROFESSIONAL SUMMARY

Team Lead & Senior Software Engineer with 15+ years of experience designing enterprise system architecture and leading delivery teams. Deep expertise in **.NET (C#)**, **microservices**, end-to-end system integration, and **OutSystems**. At PT Satu Kode Solusi, led a **20+ person team (10 engineers plus QA and BA)** for Pertamina, Falcker, and Philip Morris Indonesia, taking **20+ Pertamina projects live in six months** with 5–7 running in parallel. Introduced **AI-driven development with guardrails** (Claude, shared guidelines, self-review, senior code review), cutting time from kickoff to full QA from 3–4 months to 1–1.5 months.

LEADERSHIP HIGHLIGHTS

Team growth: introduced a career ladder (Junior/Mid/Senior Developer, Junior/Senior QA) with built-in mentoring; took part in hiring 5 team members.

Delivery rhythm: daily wrap-ups, team sharing sessions, and a configuration-driven approach that lets BA/functional staff configure features.

Engineering standards: SOLID-based coding standards, a standard code review process, and solution templates for fast engineer rotation.

AI with guardrails: Claude plus a shared guideline file, developer self-review, and senior review before merge; squads now run more projects in parallel.

WORK EXPERIENCE

Team Lead — PT NRA Digital Solusindo

2026 – Present

- Lead 3–5 engineers designing cloud-ready, microservices-based systems; drive daily code reviews, task delegation, and mentoring.
- Designed the base code for SharePoint SPFx web parts and solution templates for Golang & ReactJS projects.

Team Lead — PT Satu Kode Solusi

2019 – 2025

- Led 20+ people: 10 engineers in 3 squads of 3–4, plus QA and BA teams. Managed an annual budget of about IDR 2 billion and set yearly team targets.
- Clients: Pertamina (multiple applications incl. DOAS, SOLIDS), Falcker (FFP, LOCO, Operator Round, SmartIS), Philip Morris Indonesia (Customer Loyalty).
- Took **20+ Pertamina projects live between July and December 2025**, with 5–7 projects running at the same time.
- Rolled out Claude with guardrails; time from kickoff to full QA dropped from 3–4 months to 1–1.5 months per project.
- Built the career ladder and mentoring system, helped hire 5 people, and set coding standards, code review, and solution templates.
- Restored Falcker services quickly after Azure App Service configuration changes and recovered failed data transfers.

Senior Software Engineer — PT Dshore Indonesia

2018 – 2019

- Developed the Artilium IoT application (Parateum, Belgium) on .NET Core and MySQL, used by thousands in Belgium.
- Built RESTful APIs to specification, led code reviews, and built the Vue.js front end.

Senior Software Engineer — PT STI (Grab Indonesia) 2017 – 2018

- Built Python and Golang jobs that sent campaigns of **12–13 million messages** to drivers and passengers across Southeast Asia.
- Invoice Builder (Golang): cut invoice preparation from **5 interns over 1–2 weeks to 1–2 hours**.
- Asset Monitoring (Google Apps Script): replaced monthly manual recaps with scattered, lost data by real-time tracking.

SPV Non-ABAP Developer — PT Indofood Sukses Makmur 2015 – 2017

- Developed a WCF desktop sales application used in **hundreds of Indomarco branches** nationwide, each handling hundreds of transactions.
- Built daily data-upload pipelines and SAP integration with SSIS.

Senior Software Engineer — PT Aditya Arta Abadi 2009 – 2015

Senior Software Engineer (2012 – 2015, promoted) · **Software Engineer** (2009 – 2011)

- Led 3–5 engineers building finance, licensing, and e-procurement systems for government agencies (ASP.NET, MSSQL).
- Built a code generator and reusable base UI components; earlier gathered requirements, designed databases, and built .NET/PHP applications.

FEATURED PROJECTS

DOAS · PT Pertamina

Technical Lead: technical approach and core engine used by other developers.

- Document & official report management across holding and subsidiaries, with version control and dynamic approval.
- Multi-company employee data and Privy digital signature integration.

.NET Core · SQL Server · REST API · Privy

SOLIDS · PT Pertamina

Technical Lead: technical approach and core engine used by other developers.

- Real-time fuel stock monitoring with Power BI.
- Configurable fuel import forecasting and SAP ERP integration.

.NET Core · ReactJS · Power BI · SAP

Operator Round · Falcker

Solution Architect: designed AWS → Azure App Service → Blob Storage → Backend API → Frontend.

- Drone-based, real-time visual inspection of fuel tanks.
- Built the Azure service that generates KRpano 3D models from AWS data.

OutSystems · .NET Core · Azure · AWS · KRpano

FFP & LOCO · Falcker

- OutSystems with hybrid C# .NET Core backend.
- Fit-For-Purpose tank fitness module (API/EEMUA).
- Configuration-driven LOCO engine with publishing and versioning.

OutSystems · .NET Core C#

Sales Force Automation · Atri Distribusindo

- Mobile sales app: GPS attendance and tracking, visit planning, canvas orders, discount and bonus rules, thermal printing.

Xamarin · PHP · GPS · Thermal Printer

Sales Illustration & ChatBot · Avrist / Insurance

- Excel-based insurance products turned into a tablet-friendly web app.
- IBM Watson/Dialogflow chatbot with Node.js backend and iOS app.

.NET · SQL Server · Node.js · Swift

SKILLS

Core: C# / .NET Core, ASP.NET MVC, Microservices, RESTful API, Go, React, SQL Server, OutSystems, Azure

Cloud & integration: Azure App Service, Azure/AWS Blob Storage, SAP ERP, SSIS, Power BI, Privy, SharePoint SPFx

Leadership: Team leadership, hiring & career ladders, code review & mentoring, Agile/Scrum, SOLID, budgeting, AI-driven development (Claude), Git & CI/CD

Also: TypeScript, JavaScript, Python, PHP, Java, VB.NET, Vue.js, Angular, Node.js, Xamarin, Swift, MySQL, Oracle, Dynamics CRM

EDUCATION

Bachelor of Computer Science (S.Kom)
UIN Syarif Hidayatullah Jakarta

CERTIFICATION

OutSystems Associate Developer (O11)
August 2022

LANGUAGES

Indonesian — native
English — professional working proficiency
